Web Programming – SYST10199

Assignment 3:

Create a 10 by 10 (or larger) table and use the "mouseover" event to create a paint program (i.e. when your mouse goes over a cell the background color will change).

Define a function to dynamically create all the td elements in the table.

You can define buttons to pick the color (optional).

Submission:

- Submit a zipped copy of the assignment folder to the **Assignment #3** Dropbox on SLATE (**e-mail submissions will NOT be accepted**).
- Publish your assignment to your cPanel account and include the site URL in the comments area of the Dropbox. Include the password for the user "prof" for me to access the site ONLY IF PASSWORD PROTECTED (**20% will be deducted if application is not deployed to cPanel**).
- Assignment can be submitted for up to 3 days after the due date with 10% penalty per day. After 3 days the assignment will no longer be accepted.
- Only the last submission is marked.

This assignment must be completed individually. Any attempt at cheating on the assignment will result in a grade of zero. Please refer to the [Academic Dishonesty Policy](.).
